

# STUDENT MIDWIFE CONTINUITY OF CARE

Hi my name is Sam! I am currently studying the bachelor of Nursing and Midwifery at Victoria University.

To further advance my knowledge and skills I am searching for expecting mothers who are interested in participating in this program. I would love the opportunity to guide and support you through your pregnancy journey.

As a part of my degree, I am required to attend the following appointments:

- 4 antenatal appointments
- Labour and birth (optional)
- 4 postnatal appointments

I will be a guide for you, offering support, advice and conversation, while learning and expanding my knowledge in the midwifery field.

## Contact details:

If you are interested to be a part in this program or learning more, please feel free to message me or contact me on:
